

April 5, 2016

Roll Call: Attendees: President- John Thompson, Steve Vore, Mark May, Greta Slagle-Clerk, Council – Harry McKenna. Wes Beeson- Utilities Superintendent.

Previous Minutes. Minutes of the March 17, 2016 meeting were read. Mr. Thompson made a motion to accept the minutes, Mr. May seconded the motion. Mr. May – Yes, Mr. Vore – Yes, Mr. Thompson – Yes, the motion passed.

Citizens Comments. 1. Donnie Smith/Bob’s excavating. Mr. Smith looked a septic tank at 2770 Pemberton Road. The resident said her drains were slow and backing up. Mr. Smith found tree roots in the tank. He’s never seen roots in the tank, a seal had been damaged and the roots made their way into the tank. Mr. Smith removed the roots and sprayed around the tank to kill the roots. The Board decided to wait and see what happens next.
Mr. Smith noted the two leaking tanks the Board discussed replacing last year (Sorah and Gehron residence). We’ll discuss this at the next meeting.
2. Mr. Thompson noted a possible leak in the street at his neighbors-Gerald Rue on Chestnut St. We’ll wait until it dries up, we’ve had a lot of rain and Mr. Thompson isn’t sure it’s a leak.
3. Leak at Apartments Corner of Chestnut/Second St. We received a call from Bruce Peacock of 305 Chestnut St. He thought the apartments have a water leak. His basement wall is wet, this happened the last time there was a leak at the apartments. There is no visual proof of a leak; Mr. Thompson wants to know if we can ask the renters if we can look for a leak, or if they noticed a leak. The Board discussed, we’ll ask the Solicitor at Council meeting.

Water Report.
1. Lead/Copper. We have given Analytical Associates the material they requested. They are responding to the EPA. The EPA has requested a designated sampling address to test the water. We’ll have to test a house on each side of the designated address.
2. Contingency Plan Book. Mr. Hinkle has revised the black contingency books we need to keep current.
3. Overhead Light/Wellhouse. There is a florescent light that is out. The Board discussed and decided to replace the whole light. We may need to buy a second light. Wes noted it would be nice to have a flashlight there. The Board approved getting the flashlight as well as lights needed at the wellhouse.
4. Fire Hydrant at Rice Residence/Laura Circle. The Board discussed replacing this hydrant because it turns on backwards from all our other hydrants. Wagner Paving has told us they could replace this hydrant for between \$300-400. The Board discussed trying to repair the hydrant that is broken at the park first. Mr. Thompson volunteered to help Wes repair the hydrant at the park if Mr. Hinkle will direct the repairs. The Board discussed. Mr. Thompson made a motion to have Wagner Paving replace the hydrant on Laura Circle and the park, if we can’t fix it ourselves. Mr. Vore seconded the motion. Mr. May – Yes, Mr. Vore – Yes, Mr. Thompson – Yes, the motion passed.
5. Shut offs. Ms. Slagle asked if we could locate the shut off at 12 Second St. The water can be shut off at this residence.
6. Hinges on Aeration Tank. The hinges are rusted, the door won’t open. We may have to destroy them to get the door open.

Sewer Report: 1. Refrigerator. The fridge is producing a “hot” smell. We don’t need a big fridge, something to hold samples for Pace Labs. Mr. May may have a small one we can have.
2. Dead Tree. There is a dead tree that is hanging over the fence. Wes will work on cutting it down.
3. East Upflow Filter. This filter was cleaned.

Old Business: 1. None

New Business: 1. None.

Shut offs. 1. Shut off notices: Shut off notices are to be sent.

Bills: Mr. Thompson motioned to pay the bills, Mr. May seconded the motion. Roll Call Vote: Mr. May – Yes, Mr. Vore – Yes, Mr. Thompson – Yes, the motion passed.

DP&L	\$1319.11	PERS	\$607.79
